Electrical and Fiber Optic Hybrid Slip Ring

Optical and Electrical Rotary Joints

The hybrid slip ring carries electrical circuits and optical signals across a rotating interface. Select the electrical and fiber channels for the same assembly.

Technical specifications

Number of circuits	68 Channels
Rated current (A)	20 (Power circuits)/3 (Signal circuits)
Rated voltage	380 VAC/VDC
Diameter / Length (mm)	Φ83/288
Operating speed (RPM)	250
Operating temperature (°C)	-30 to +70
Ingress protection	IP51
