J599A8 Series Fiber Optic Connector

Aviation Connectors

The J599A8 family provides a removable optical connection in a circular shell. Shell selection and cable termination determine compatibility with the equipment interface.

Technical specifications

Insertion loss (dB)	≤0.6
Operating temperature (°C)	-55 to +85
Vibration	10Hz to 2000Hz, power spectral density 0.4G²/Hz, RMS acceleration 23.1
